

GLoucestershire CCC – Performance Analyst Internship

Gloucestershire County Cricket Club are offering an exciting opportunity for University students to gain experience in Sports Performance Analysis for the upcoming 2025 season.

Roles & Responsibilities

- Matchday setup of cameras & analysis equipment at both the county ground & out grounds
- Live coding across the 1st XI, 2nd XI & academy teams
- Assist with pre and post match analysis of our own performance & opposition
- Support the lead analyst with tasks and matchdays within the 1st team
- Aid training sessions across the club either filming or with data collection across the winter & summer
- Undertake research projects driven by lead analyst and any other tasks from the cricket support team

Skills & Experience

- A driven and committed individual that is passionate about cricket & performance analysis
- Strong understanding of Microsoft products and IT skills
- Ability to work within a multi discipline team
- Work under pressure & to deadlines
- Understanding of cricket at any level
- Applicants must study a sports-based course (preferably a Sports Performance Analysis Course)
- Hold a full & valid driving licence for travel purposes

What We Can Offer

- Experience within a professional sports team environment
- Training of Play Cricket Scorer Pro and Tableau data analytics software
- Travel expenses & Gloucestershire kit will be provided

How To Apply

- Applications should send their CV & covering letter to:
Harry.clements@glosccc.co.uk
